

Conditions for the admission to the doctoral procedure for
candidates/applicants with a foreign university degree
for the field of physics
(Doctorate regulations § 4, Abs. 3 c) and Abs. 7)

If a candidate has obtained his or her university degree in a foreign country the dean of the faculty will check whether the relevant degree is equivalent to the German educational qualification (= Bildungsnachweis). In this connection, legally binding international agreements as well as the recognition recommendations given by the Standing Conference of the Ministers of Education and Cultural Affairs (Central Office for Foreign Education, Bonn) and the German Rectors' Conference are applicable.

For this purpose, candidates with a foreign university degree have to file an application to the dean, requesting the equivalence of the obtained foreign university degree to be recognized in accordance with the doctorate regulations for an admission to the doctorate at the Faculty of Electrical Engineering, Information Technology, Physics.

The application is to be send to
The Dean of the Faculty of
Electrical Engineering, Information Technology, Physics
Professor Dr. rer. nat. A. Enders
Postfach 3329
38023 Braunschweig

The following documents are to be enclosed:

- Curriculum vitae
- Certified copy of the school-leaving certificate (qualifying for university entrance) as well as an official translation if the certificate ist not written/made out in the English language
- Certified copies of all certificates and diplomas (bachelor, master degree) obtained during the studies of a scientific subject at the relevant foreign college or university as well as official translations if the certificates and diplomas are not made out in the English language
- Written confirmation of the mentor that she or he shall be prepared to look after / supervise the candidate during the doctoral procedure. In accordance with your mentor you have to decide whether you will write your thesis in English or German. If your thesis will be in English, you need a signed agreement from your doctoral committee members
- if available, documents about the knowledge of the German language (for example DSH or Goethe Institute)
- if available, comments of the International Office / TU Braunschweig
