Shape tomorrow today at Hitachi Energy

Do you want to contribute to advancing a sustainable energy future for all? Are you looking for an opportunity where you can bring in your energy and be part of a global team that appreciates a simple truth: Diversity + Collaboration = Great Innovation? Join us for our livestream on 7th April and learn more about a career at Hitachi Energy!

We bring energy to our homes, workplaces, hospitals, and schools. What we deliver is used globally by more than three-quarters of the world’s population. What we do is always evolving. Keeping the world turning requires us to find new ways to do big things better in close partnership with the communities who need us, and with the partners who genuinely inspire us. We are an energy technology company with engineers, digital pioneers, creators, and innovators at our core. We do more than keep the lights on, our purpose is to inspire sustainable progress.

Today’s challenges are bigger than one company, one team, and one individual. We recognize that true innovation comes through collaboration with diverse colleagues. We need talented people from different backgrounds to bring fresh ideas, to question the status quo, and to challenge us with their unique points of view. By connecting colleagues across the globe in an inclusive environment, we leverage the full power of diversity of thought. This is essential to shape our future through active collaboration delivering great innovation.

Interested? Come and meet us on the 7th of April.

When? 7th of April, 12:00 – 13:00 CET
