

## Tracking Down Research Literature

Are you not quite sure how to best get a hold of research literature? In this workshop, you will learn:

- How to prepare for your research project
- Which platforms to consider using for your research
- How to come up with search terms and document your progress
- How to make use of Boolean operators, truncations and other ways to effectively use search engines

The course includes theoretical input and practical exercises.

### **Please note:**

This workshop cannot be credited as qualification measures at the Department of Mechanical Engineering. However, you are welcome to participate.

**Trainer:** Andreas Weitzel

**This course will be held in English and online.**

### **WHEN**

13.10.2021 10:00 - 12:00
