Good Scientific Practice – protecting scientific integrity

The interactive lecture gives a short introduction to the topics "good scientific practice" and "misconduct in science", referring to everyday situations of empirically or experimentally working junior researchers. Participants will learn about the official regulations on good scientific practice and how to protect their scientific work.

Content
The content of the lecture is based on the recommendations of the curriculum for courses on "Good Scientific Practice", which was prepared on behalf of and in cooperation with the German Research Ombudsman allowing topics:

- Good Scientific Practice
- Scientific Misconduct and how to deal with it
- Data and authorship
- Codes of conduct on GSP

Methods
online lecture with presentation and discussion

Lecturer
Dr. Michael Gommel

Please note
This workshop cannot be credited as qualification measures at the Department of Mechanical Engineering. However you are welcome to participate.
This course will be held in English.
