

Tracking Down Research Literature*

You are preparing for your next academic/scientific project? You would like to know more about how to best get hold of research literature? In this workshop, you will learn:

- How to prepare for your research project
- Which platforms to consider using for your research
- How to come up with search terms and document your progress
- How to make use of Boolean operators, truncations and other ways to effectively use search engines

Methods:

The course includes theoretical input and practical exercises.

Please note

This course will be held in English. A German workshop will be offered later in the year.

The workshop will be offered in cooperation with the University Library.

Notice

*This workshop cannot be credited as qualification measures at the Department of Mechanical Engineering. However, you are welcome to participate.
