Research at TU Braunschweig: Core Research Areas

TU Braunschweig has identified 4 interdisciplinary core research areas:

Mobility

Metrology

Engineering for Health

Future City

Research at TU Braunschweig: Clusters of Excellence

TU Braunschweig has 2
Clusters of Excellence
within the German
University of Excellence
scheme:

**SE²A – Sustainable and
Energy Efficient Aviation**

established 2018

Core research area Mobility

**Quantum Frontiers
(together with LU Hannover)**

established 2018

Core research area Metrology

Research at TU Braunschweig: Research Centres

Our interdisciplinary research centres are **long-term interdisciplinary and interdepartmental research associations**.

Professors **from at least two faculties** come together to form a Research Centre.

In most cases, **non-university research institutions are involved**.

ZeBra

Situated in Europe's Most Active Research Region

- In the city and region of Braunschweig, more than 19,600 people work in research and development institutions.
- 4 % of the population work in research and development – this is the highest ratio in Europe.
- More than 30 major research institutions and companies contribute to the research region.

According to Eurostat, Braunschweig has the highest ratio of GDP spent for research and development in Europe.
