

## Mechatronics Engineering

Dear Students,

Here, you can do any kind of work to create flexible/stretchable sensor systems!  
From sensor design/fabrication, over electronics development/fabrication to exciting software development tasks.

Just have a look at my website: [www.ib-ekoch.de](http://www.ib-ekoch.de)

You can expect interesting tasks at a competent and pleasant working atmosphere!

Feel free to contact me at any time 😊

Best regards,  
Eugen

### Fields of activity

- Sensor/Hardware development
- Software development
- and more...

### Requirements

- Ambition to do amazing work and become a great mechatronics engineer.

**Start:** any time  
**Contact:** Dr.-Ing. Eugen Koch  
Phone.: 0160 97554680
