

Modul “Career Entry Qualifications”/ “Berufseinstiegsqualifikation” (10 CP)

Professional Skills (2 CP)

Mandatory

Intercultural Training (12 hrs)

- In this workshop, students will explore their cultural values and learn to understand how these affect their interaction with fellow students, administrators and professors at a German university. Students will also learn how to collaborate and communicate more effectively in international teams and with their professors. By analyzing and discussing critical incidents, students will develop strategies to manage similar situations successfully in the future.

Lecture Series (7/10)

- "Introduction to Computational Engineering" - Lecture series about different topics and specialisations in CSE

Choose one

4 day excursion (Hamburg)

- Company excursion to Hamburg, where you'll meet different companies and possible employers
