Braunschweig International Graduate School of Metrology (B-IGSM) offers a structured doctorate in cutting edge research combined with a metrological qualification program where a metrological certificate can be earned.

The graduate school supports PhD students in acquiring key competences in metrology by offering a curriculum on metrological concepts and research as well as on structures of metrology and regulatory activities.

### Benefits
- structured doctorate
- excellent training program with first rate academics
- metrological knowledge as an additional qualification
- metrological certificate
- contact to the scientific community
- network building

### Obligations
- Regular attendance at B-IGSM lecture series in summer semester (>75% of the dates)
- Regular attendance at B-IGSM courses and other activities
- Attendance at one B-IGSM Summer School (taking place every two years)
- At least two presentations of the PhD project during the seminar in winter semester (also covering the link to metrology)
- Report of all publications

### Metrology Points

For the award of B-IGSM’s Metrology Certificate a total of 36 Metrology Points (MP) needs to be acquired. The table below gives you an overview about how many Metrology Points can be awarded per type and semester as well as in total.
