/europeanpolicyanalysis

Scopus CiteScore: 3.9

EPA provides a platform for European perspectives in policy research. The journal publishes articles that theoretically expand or empirically test European approaches or transfer non-European approaches into European contexts. In addition to peer-reviewed articles, EPA offers the opportunity to address current political issues and the state of debate in policy research in forum contributions and to have the respective authors or editors of current relevant publications briefly summarize why their book is worth reading.

Several Courses Have Been Nominated for the "LehrLeo" Award for Best Teaching Practice

Excursions

We regularly organize excursions to places that are relevant to the understanding of policy processes in and outside of Germany. Students are given the opportunity to gain a live impression of institutions, buildings, and policy actors. Among the excursions organized in the past years are

- Paris
- Moscow
- Berlin
- Bonn
- Hannover

Excursion Group in the French National Assembly

Interests in Research and Teaching

Our substantial interests in research and teaching include a variety of policy areas and policy processes on multiple levels of governance. Over the last years, funding was provided – among others – for the following research topics

- Comparative Health Policy (DFG)
- EU Governance and Lobbying in the EU (DFG and Hans Böckler Foundation)
- British and German EU Policy (DFG)
- Gender Studies (Lower Saxony Ministry of Science and Culture)
- Local Education Governance (Local Business Promoters)
- Escalation Research in Large Scale Infrastructure Projects (VW Foundation)
- Agricultural Systems (BMBF)
- Urban Transport Policy (BMBF)
