

Student Assistant (Hiwi) position

Summary:

Student assistant for script improvement à 40 h (or more) per month at ISM (m/w/d);

Start: **Immediately.**

The Flow Modelling and Control workgroup at the institute of fluid mechanics is looking for a highly motivated student assistant (HiWi) to improve an existing Fluid Mechanics lecture script. Basic requirements are good English and German language skills and latex. Knowledge in fluid mechanics is a plus.

Your mission

To improve an existing lecture script on the subject of fluid mechanics. The improvements will be mostly based on an existing German script. That means proper translation from German to English. The work could be performed at distance or at the Institute für Strömungsmechanik, Hermann-Blenk-Str. 37 at Braunschweig with flexible working hours. The job is scheduled immediately with 40 hours (or more) per month.

The main tasks are listed below:

- Upgrade and clean the existing latex template
- Supplement the existing script with text from the German script
- Transfer and adapt select figures

Requirements

- Good German and English language skills
- Latex knowledge
- Knowledge in fluid mechanics and photo-editing software are a plus

With similar qualifications, severely handicapped persons shall be selected. A certificate must be enclosed.

For procedural purposes, personal data of the applicant will be stored.
