

Vortrag im Gästeprogramm des GRK 2075

Prof. Dr. Joachim Denzler

Lehrstuhl für Digitale Bildverarbeitung
Friedrich-Schiller-Universität Jena, 07737 Jena, Germany

Deep Learning

Donnerstag, 13. Juli 2017, 14:00 - 15:30 Uhr
Institut für Statik, Seminarraum
Beethovenstrasse 51, 38106 Braunschweig

This tutorial gives a basic introduction into key elements of deep learning, current methods and algorithms, as well as good practices in specific applications. The tutorial will stay in shallow waters and focus on an overview on Deep Learning and its applications, including general overview on machine learning and Deep Learning, showcases, applications, and some live-demos, as well as practical Issues to consider. In essence, it aims at demystifying the deep learning hype, showing what deep learning can achieve especially for visual recognition.
